("Raubex" or the "Group")

NOTIFICATION OF CONTRACT AWARD FOR THE UPGRADING OF THE MPIKA-NABWALYA-MFUWE ROAD (RD49) IN ZAMBIA

Shareholders are referred to the Group's annual results announcement published on 12 May 2014 and which indicated the pending award of the Zambia Link 8000 contract for the upgrading of approximately 117 km of the Mpika-Nabwalya-Mfuwe road (RD49) in the north eastern Muchinga Province of Zambia.

Raubex is pleased to announce that the contract has been formally awarded and signed by the Zambian Road Development Agency for an amount of ZMW 540 million. Mobilisation will commence in July 2014 and the contract has a completion period of 30 months.

This contract follows the awarding of the ZMW 265 million contract for the upgrading of approximately 94 km of the Safwa to Chinsali road earlier this year. Site establishment for this contract, which is also in the Muchinga Province of Zambia, is in progress and the contract has a completion period of 24 months.

Commenting on the Zambian contracts, Rudolf Fourie, Raubex CEO, said: *"We are pleased to have secured these two contracts which are in line with our plan to grow the Group's international order book as we see out the highly competitive conditions in the South African market."*

"We have a lot of experience in the African road construction market and these Zambian contracts will support the performance of the Raubex Construction division over the next couple of years, as we continue to position the Group as a major player in geographies meeting our investment criteria."
